ABOUT ME

+3 years of experience as a Systems Engineer. My commitment to excellence drives me to optimize and improve processes. I use my skills and knowledge to contribute to the success of your company. I am always ready to adapt to new technologies and face challenges.

PROFESSIONAL EXPERIENCE

IMarket

Ssr - Fullstack Developer

Nov 2024

- Develop full stack applications using Angular, TypeScript, .Net 8 and PostgreSQL.
- Build dynamic user interfaces using Angular 18 and TypeScript.
- Design and develop complete services and APIs, ensuring their correct integration and consumption from the frontend.

Prodoctivity SRL

Fullstack Developer

April 2023

- Develop full stack applications using React, TypeScript, Node and MongoDB.
- Design and build Micro-services to support business processes and integration with the company's ERP.
- Provide assistance to my colleagues in case of any doubts or queries related to any aspect. If I have clear knowledge on the topic in question.
- My role is to supervise and guide interns joining the programming team, offering them constant follow-up, troubleshooting support, code review and technical advice to promote their learning and development, in order to achieve an effective integration to the team and contribute to the success of the project.

FREELANCER

Web developer

Nov 2021

- I convert user stories, mockups and web designs into functional sites using fundamental web technologies such as HTML, CSS and JavaScript.
- Create basic web page layouts and user interfaces using HTML and CSS - Creation of SPA and PWA front-end modules.
- Perform Data Integration, work with back-end services and databases to integrate data into the website.
- Translate graphic designs (such as PSD files or Figma mockups) into HTML and CSS code to implement them on the website.
- Performs routine maintenance tasks on the website, such as updates, bug fixes and enhancements.
- Ensures that the website is fast, efficient and compatible with different devices and browsers.
- Works closely with web designers to implement their creative vision.
- Keeps abreast of the latest trends and technologies in web development and applies them in their work.
